

CyberBullying

Cyberbullying is the use of technology to bully an individual or a group with the intent to cause harm. Cyberbullying material can spread quickly, be difficult to delete and be created by anonymous users. Cyberbullying can have a serious impact on your life and the lives of other young people.

What is cyberbullying and what are the impacts?

What are the steps I need to take to **lodge a complaint about cyberbullying?**

Bullying. No Way! is managed by the Safe and Supportive School Communities (SSSC) Working Group. The SSSC includes education representatives from the Commonwealth and all states and territories, as well as national Catholic and independent schooling representatives. Students can access useful information on bullying such as how to respond, who to talk to and download resources. Information is organised into age appropriate, relevant content for students, parents and schools
