

Filmbites Youth Film School **Holiday Workshops April 2012**

Since 2003, Filmbites has been teaching young people aged 5 to 18 all aspects of film production in hands-on classes.

Students interested in a career in the media and entertainment industries attain a head-start in their skills development.

For others, Filmbites classes are simply a great way to learn cool new skills, make more friends and gain essential life skills like teamwork and discipline.

Filmbites student films have won awards and screened in film festivals.

As a casting agent, our students are also regularly cast in local commercials and film roles.

Filmbites also work with youth through programs for local governments, with home-schooling groups and workshops for schools. Filmbites also teaches professional learning workshops for teachers.

All our instructors have the Working with Children Check.
